Simplifying Engineering Solutions

Don't Miss Out

Register now

for our next Safe Operations of High Voltage Systems training course delivered by Mike Burrows.

19th-23rd October 2020

The Details

Mike Burrows is passionate about High Voltage safety and competency and will be running a 5 day training course in relation to the Safe Operation of High Voltage Systems. This course provides the necessary underpinning of the Safety, Legal, Technical, Operational and Procedural background knowledge for persons wishing to further their electrical engineering careers and who also wish to be considered for promotion to the role of “Authorised Person” within their employer’s organisation.

When:

Monday 19th October 2020 to Friday 23rd October 2020 9.00 am - 4.30 pm

Where:

Horizon Engineering, Unit 11 Ravenhill Business Park, Ravenhill Road, Belfast BT6 8AW

Why you should attend:

Are you compliant with industry regulations? Learn how engaging in High Voltage safety and competency ensures you are meeting your regulatory requirements. Anyone working on electrical systems where technical knowledge or experience is necessary to prevent danger or injury must have the required knowledge and/or experience or be under suitable supervision and this course will deliver the fundamentals. On successful completion of the course candidates will be awarded with a Certificate of Achievement which can serve as evidence of training in the appointment process for Authorised Persons within individual organisations.

What you will get:

- Course Overview and Introduction
- Module 1- Dangers of Electricity
- Module 2- Entry into Substations and Switchrooms
- Module 3- Legislation
- Module 4- Industrial HV Power Supply Arrangements
- Module 5- Electrical Switchgear
- Module 6- Earthing
- Module 7- Electrical Faults and Protection
- Module 8- Electrical Safety Rules
- Safe working General Guidance
- Practical Test and Examination
- Certificate of Achievement
