Course Overview

IOSH Managing Safely

iosh Approved training provider

HORIZON

Course Requirements

- Electrical Training
- Facilities Management
- Carbon Management

Entry Requirements

- This 3-day course has no official entry requirements and is available for anybody who is interested in improving workplace Health & Safety.

Introduction to IOSH

The Institution of Safety and Health (IOSH) is dedicated to making the workplace safer and healthier for everyone. These courses are practical, informative, interactive and motivational and are therefore highly regarded by thousands of organisations and individuals.

Course Purpose

- Electrical Training
- Facilities Management
- Carbon Management

IOSH Managing Safely is delivered over three days. It is a risk-management based health and safety course relevant to all working environments.

Those who attend, are educated and encouraged to go back to their individual workplaces and involve everyone in the process of looking after their own and others' health, safety and wellbeing.

IOSH is not about what you can't do, it is about planning how a process or task can be carried out safely, productively within a positive health and safety culture.

On successful completion of the course delegates will be awarded with an IOSH Certificate of Achievement.

Course Content

- Electrical Training
- Facilities Management
- Carbon Management

What you will learn on this course:

- An Introduction to Health & Safety.
- The Risk Assessment process.
- Applying the Hierarchy of Risk Control.
- An Overview of Health & Safety Law and Management Systems.
- Understanding Common Hazards.
- Accident Investigation.
- Measuring Performance.

Upon completion of the 3-day course, candidates are required to sit a short examination and will submit a risk assessment project which they will develop throughout the course in the classroom.

Course Delivery

- Electrical Training
- Facilities Management
- Carbon Management

Introduction

This will be a modular course delivered over a 3-day period.
